

The Crucible's Fire

Learn. Teach. Repeat.

2 Timothy 2:2

Our First Newsletter

We are very excited to finally bring you a monthly newsletter! We've always depended on social media and word of mouth to carry the news of the ministry, but the growth we've seen this year has shown we need a better way to keep in touch with YOU!

The Crucible's Fire exists to **Equip, Educate, and Encourage** the body of Christ as they become, and raise up, disciples of Jesus willing to Learn. Teach. Repeat.

2 Timothy 2:2

"What you have heard from me in the presence of many witnesses, commit to faithful men who will be able to teach others also."

Twenty six pastors from Juamave, Tamaulipas drove 6 hours to attend the 2-day How to Study the Bible training near Matamoros in June.

2021 Has Been a Wonderful and Busy Year!

What an incredible year we have had in 2021! In the face of pandemics, economic downturns, and global unrest, the Lord has used this ministry to do some incredible things! Let's take a quick look at what He accomplished through you and your generosity.

Jan-Feb - Storm Relief

During the sub-zero temperatures this winter, we were able to repair plumbing, install heat lamps, and assist a few families with their high utility bills due to inefficient heating and unseen water leaks.

Spotify Channel

We also launched our Spotify Channel Embers and Sparks in 2021. Be sure to check it out and subscribe to get audio only versions of the Friday Live Podcast.

March - Survey Trip to Juamave, Tamaulipas

We partnered with our home church, The Bridge Fellowship to lead a group to Juamave and reconnected with friends and pastors.

March Madness Bible Giveaway

This year we were able to give away over 350 Bibles to those in need!

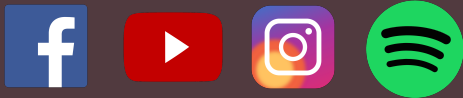

25 on-site students and 7 online students joined in for a 1.5 day workshop for How to Study the Bible.

Help Us Carry On the Mission

Find us on all our Social Media Outlets

Thank you for your partnership!

June - Bible Study Training in Mexico

We were able to partner with Central Baptist Church, Athens, TX and Way of the Cross in Harlingen, TX to host a How to Study the Bible training workshop and provide hard to get Bible Study resources to 26 pastors from Juamave.

August - Partnered with Olive Tree Bible Study Software

As border crossing becomes increasingly more difficult, we have partnered with Olive Tree to provide the study materials for less than 1/3 of the cost of printed materials!

Launched a plan for a NEW custom app

In order to deliver Bible Study Training and materials in an offline format, we need to develop our own online app. The beta version is currently live in the Apple and Android App Stores.

November - How to Study the Bible Workshop

We were honored to host and teach a How to Study the Bible Workshop at The Bridge Fellowship in Martin's Mill, TX. We were able to train 25 on-site guests and 7 online, one in Costa Rica.

December - Planning Training in the Rio Grande Valley

We are working with several different ministries and church planters to bring this training to the Rio Grande Valley where local pastors will become Ambassadors for The Crucible's Fire and learn to take the training across the border to churches they work with there. We hope to train 100 Ambassadors in 2022.

Coming up in 2022

2021 was certainly busy, but 2022 is shaping up to be even busier.

Costa Rica

We are working with missionary, Juan Jose Venegas, from First Baptist Church, Edom, TX to take this training to the people of Costa Rica.

Training Trips to the Valley

We are planning 2 trips to the Rio Grande Valley to train Mexican church leaders and church planters to become Ambassadors who will take the training across the border to Mexican national pastors along the border and beyond.

Custom App Deployment

Work is underway to develop and deploy our very own custom app to provide video training content and materials registration for pastors in regions difficult to access. All apps and resources are fully functional offline so the pastors can either download one time or arrange for physical delivery via flash or disc. This will make this training accessible to many more people in closed regions.
